

ADVANCING YOUR PRODUCTS. TOGETHER.
CSA GROUP AND CSA GROUP BAYERN.

CSA GROUP BAYERN. THE STRONG PARTNER BY YOUR SIDE.

CSA Group Bayern GmbH offers professional and reliable services in product testing and certification. CSA Group Bayern owns one of the largest testing laboratories in Europe, is accredited by renowned organizations and has a knowledge base from thousands of projects each year to guarantee the high level of flexibility needed to get you where you want and need to go, as quickly as possible. As Notified Body and member of CSA Group, we are part of a strong global network with extensive laboratory facilities and experienced teams of specialists. No matter whether you run a one-man business or a large international corporation, CSA Group Bayern is there to serve you as a specialized service partner for all your needs.

OUR NETWORK IS YOUR FOUNDATION. PLACE YOUR PRODUCTS IN THE RIGHT HANDS.

CSA Group is one of the leading testing and certification organizations in Canada and the USA. Our European headquarters is located in Frankfurt am Main, Germany. With nearly 100 years of experience in the development of standards as well as product testing and certification, coupled with the knowledge of more than 1,800 specialists, we bring our clients' products to markets all over the world. CSA Group is recognized and accredited as an official testing and certification institute by various organizations, including ANSI, OSHA and SCC. In addition, CSA Group is a member of the IECCE and certification body for the CB Scheme. Our extensive global network provides individual, local support for all testing and certification projects, regardless of your location.

TESTING, EVALUATION, CERTIFICATION. EXPERTISE THAT SPEAKS FOR ITSELF.

CSA Group Bayern GmbH has one of the largest and most advanced laboratories in Europe. It is accredited by numerous bodies and provides comprehensive testing capabilities in the areas of electromagnetic compatibility (EMC), automotive, safety, environmental simulation, wireless communications technology and metrology. Add to this our dedication and technical know-how, and we can guarantee optimal testing and certification services – a one-stop-shop without any detours.

In addition to our testing and certification services, we also offer project and laboratory management services at your location. This gives you direct, on-site access to the expertise of our measurement specialists, allowing your own employees to dedicate their attention to other core activities.

Our laboratory is accredited by various organizations, including:

DAkKS	SNCH	IC
IEECE	VCCI	SASO
SCC	FCC	VSCC
KBA		

WE GET YOUR PRODUCTS TO MARKET. GLOBALLY.

Before any product can be successfully launched on the international market, it must be in conformity with the guidelines and standards of the target countries. Our Global Market Access team supports you in gaining worldwide market access for your products. Our specialists oversee the entire certification process, from the initial testing to final certification. This one-stop approach means that your product will reach the international market as quickly and efficient as possible.

WHAT WE OFFER. TOP SERVICE FOR YOUR PRODUCTS.
